Σχόλια του τοπικού μας συνεργάτη/ Comentários do Monitor :

Dear supporter, I am writing on behalf of your sponsored child - Shambel. Shambel likes to say his heartfelt greetings to you and your whole family. He and his entire family members are doing quite well. He would like to thank you for the support you provided to Action Aid to construct a school, which has facilities like a library, a mini-media apparatus, a water point, etc. and establish a saving and credit association. Women in his village get loans and save money in order to improve their lives. Shambel and his fellow friends enjoy being members of the mini-media club. He also likes to tell you about their markets. Their market days fall on Thursdays & Saturdays. The main market place is called Fitcha. They get cooking oil, sugar, potatoes, salt, Onion, & others. They often buy cooking oil, sugar, potatoes & salt. "So long," he says.
